

# Partnering with eHealth NSW

The front door for digital Health research projects

Heidi Mueller

Data & Analytics Portfolio, eHealth NSW

16 June 2021

#### **VISION:**

A digitally enabled and integrated health system delivering patient centred health experiences and quality health outcomes

Organisations and health system performance is optimised and informed by eHealth.

Our people are assisted by eHealth to make effective decisions and in the delivery of integrated care.

Patients are well informed and supported by eHealth in achieving their health objectives.

#### Focus areas & examples

CONSISTENT APPROACH TO FOSTERING IT ENABLED INNOVATION

Creating a Culture of Innovation and Collaboration

Coordination of ICT and Health Enabled Innovations

#### DATA AND ANALYTICS

ENHANCED DATA
MANAGEMENT, ANALYTICS
AND HEALTH INTELLIGENCE

Standardised Data Structures, Storage and Reporting

Use of New Data Sources

Enhanced Data Mobilisation

Enhanced Population Health Intelligence

Enhanced Preventative Health Analytics

Enhanced Research and

#### INFRASTRUCTURE, SECURITY AND INTELLIGENCE

ROBUST MINIMUM STANDARD FOR INFRASTRUCTURE, NETWORKS AND CYBER SECURITY

High Speed Clinical Grade Network

Wireless Services

Health Digital Identity

Security and Privacy Strategy

Government Data Centre

#### ACCESS TO INFORMATION

ENHANCED PATIENT AND PROVIDER ACCESS TO DIGITAL HEALTH INFORMATION

Seamless Information Flow Between Core Systems

Workforce Access to Applications Anywhere Anytime

Highly Mobile and Intuitive Solutions

## CORE CLINICAL SYSTEMS

INTEGRATED PAPER-LITE CORE CLINICAL INFORMATION SYSTEMS

Electronic Medical Records

HealtheNet

Diagnostic Solutions

Incident Management System

## FOSTERING EHEALTH SOLUTIONS THAT SUPPORT INTEGRATED CARE

Patient Identification and Selection

Patient Reported Measures

Patient and Provider Video Conferencing

Patient Health Education and Information Resources

Secure Messaging and eReferral Management

**Shared Care Plans** 

Online Appointments

Remote Patient Monitoring

#### WORKFORCE AND BUSINESS MANAGEMENT SYSTEMS

ENHANCED INFORMATION AND TOOLS TO FOSTER ORGANISATIONAL EFFECTIVENESS

Availability and Access to Workforce Data

Effective and Integrated
Workforce Management Tools

Workforce Education and Professional Development Tools

Finance Lifecycle Management

#### Key Strategic developments in eHealth NSW

Optimising our
Electronic Medical
Record (EMR)
Environment

Developing the Digital Health Workforce

Shared Care & Virtual Care

Data Analytics, machine learning & Al

Interoperability (patient safety & continuity of care)

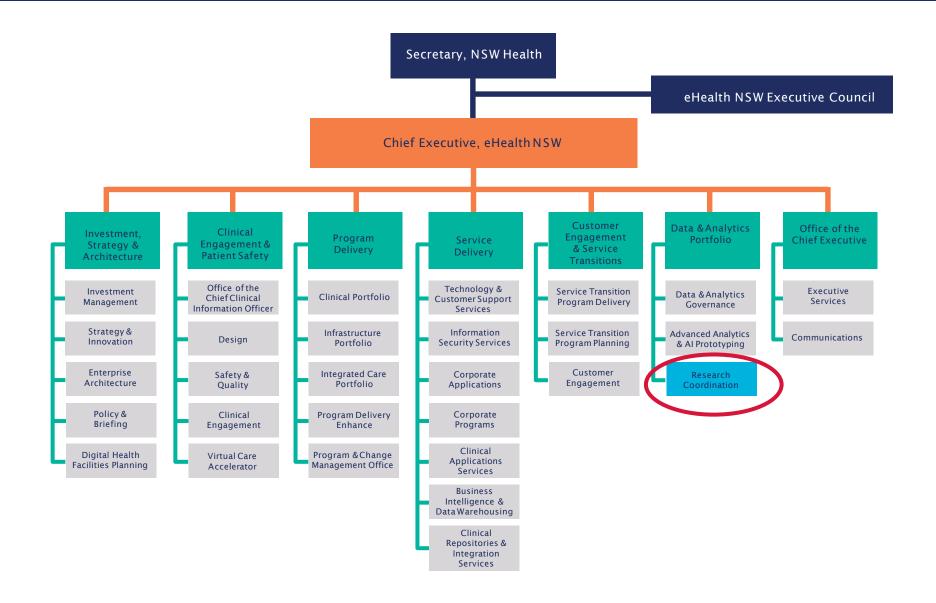

Clinical Governance (Human Centred Design)

**Increased focus on Patient Experience** 

ICT Service modernisation and Transition

#### eHealth NSW -Structure

#### Why coordinate with eHealth NSW

**PSAF** 

Privacy and Security Assurance Framework - helps programs and projects to eliminate or mitigate any potential risks and acts as an early assessment service which seeks to identify and influence every stage of a new system.

**Expertise & Guidance** 

Expertise and guidance on statewide projects

Research & Implementation Partner

Support and endorsement on grant applications

Enterprise architecture review

Provides technical merit to ensure that selected technology and software tools can be implemented and supported within the enterprise.

Data

Data integration, the need to utilise data across multiple LHDs, the need to use technology, or request changes to the EMR as part of your project.

### eHealth NSW Research Function

Submit Request

Rapid consultation with eHealth Research Coordinator technical experts

Internal review & strategic alignment

Collaboration & discussion Internally & with partner agencies

Endorsement & Approval

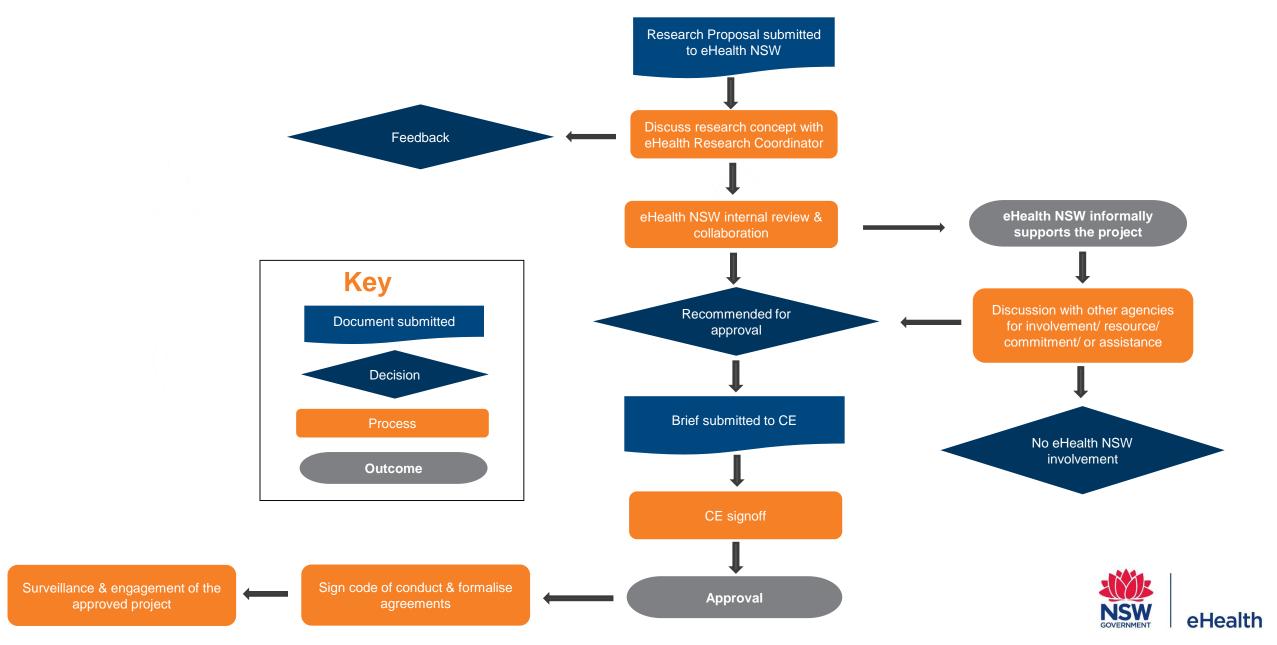

#### **Key Partners**

- The Office of Health and Medical Research
- Local Health Districts and Specialty Health Networks
- The Agency for Clinical Innovation (ACI)
- Clinical Excellence Commission
- Ministry of Health (MOH)
- Local ICT & Chief Information Officer (CIOs) at Local Health Districts
- Health service administrators
- Universities
- Clinicians
- Researchers

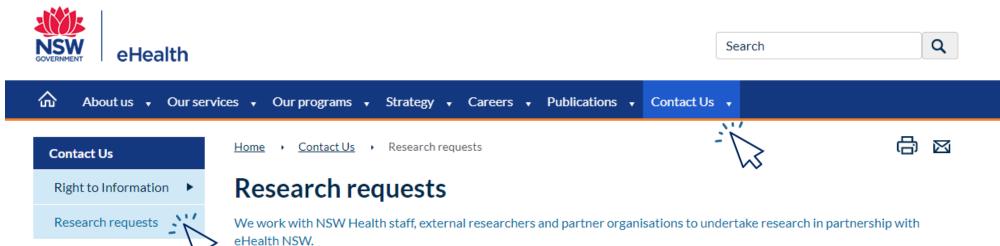

#### **Key Focus Areas**

- The research must add value and benefit the system.
- The project must directly align with the priorities of eHealth NSW (eHealth Strategy for NSW Health, NSW Health Analytics Framework, NSW Health Strategic Priorities, and The Premier's Priorities).
- The application must demonstrate collaborative engagement and consultation with relevant networks and stakeholders where applicable.
- Completed feasibility trial and/or pilot project demonstrating value, before considering multi-site state-wide roll out and/or broad ICT integration.

# External Research Review and Approval Flowchart

#### **Submitting a Research Request**

eHealth NSW.

eHealth NSW uses an operating model, including key criteria and principles, with consideration on value and benefits for the system, as well as how research could be translated into practice. With these considerations, eHealth NSW endorses and partners with particular projects.

"What we are doing is coordinating, enabling, and providing standardised governance and reporting," said Lachlan Rudd, Director of Data and Analytics, eHealth NSW.

For research-related enquiries, please contact Heidi Mueller, Research Coordinator for eHealth NSW's Data and Analytics portfolio: <a href="mailto:EHNSW-Research@health.nsw.gov.au">EHNSW-Research@health.nsw.gov.au</a>

- ▶ Eligibility Criteria
- Endorsement by eHealth NSW
- Application process overview
- Research Conduct
- Current research projects
- Frequently asked questions
- Recent opportunities

# **Submitting a Research Request**

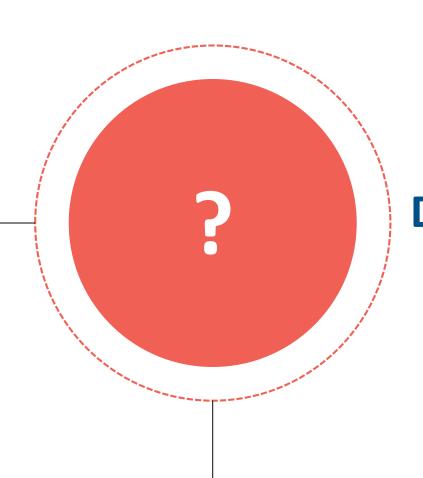

You will be asked to complete a set of questions regarding the project, then attach a protocol and/or draft grant application.

## eHealth NSW Research Request Form \* Required 1. Full Name \* Enter your answer 2. Email address \* Enter your answer 3. Best contact number \* The value must be a number 4. Project Title \* Enter your answer 5. Host Organisation \* Enter your answer

## Thank you
