

OHMR Research Ethics and Governance Metrics Program

Metrics Activity Report for NSW PHOs

Reporting Period: Quarter 4 2022
01/10/2022 – 31/12/2022

NSW Office for Health and Medical Research

Executive Summary

This report includes strategic and site level performance and compliance metrics that are collected by the Office for Health and Medical Research (OHMR) from NSW Public Health Organisations (PHOs) on studies authorised during the reporting period. The performance of NSW PHOs on health and medical research are reported four times a year, each covering a 3-month period.

Overall Performance Environment

REGIS is the online platform used to manage ethics and governance applications for all NSW Public Health Organisations. OHMR has undertaken data validation activities with LHD Research Office staff to accurately represent research ethics and governance performance on this platform. These rolling validation activities may result in data reported here to differ from previous reports.

Update to Metrics Program

As reported previously, OHMR implemented the following changes to the Research Key Performance Indicators (KPIs) for inclusion in the Chief Executives' Services Agreement:

- Change benchmark to/measure/Total Time/rather than time spent with LHD Research Office alone
- Number of Greater than Low Risk projects (GLR) processed within application total time
 - 90 days for ethics, 60 days for governance
 - Threshold changes
 - >75% = Performing
 - 55%-75% = Underperforming
 - <55% = Not performing

Ethics Review Timelines of Human Research in NSW PHOs

KPI21-03: Ethics Application Approvals - By the Human Research Ethics Committee (HREC) within 90 calendar days

NSW State Benchmark: The benchmark for the 2021/22 financial year onwards is for reviewing human research studies by NSW PHO HRECs within 90 calendar days

Definition:

The proportion of Ethics applications (excluding LNR) approved by the HREC within 90 calendar days, approved within the reporting period.

Context:

The measure will no longer account for clock stops in accordance with the NHMRC Certification Handbook. Instead, the end-to-end time will be measured. Where a valid application is received, the clock starts on the submission closing date for the HREC meeting at which an application will be reviewed. The clock is stopped when the HREC formally notifies the applicant of the final decision.

Desired Outcome:

Ensuring timely processing of ethics approvals for research and clinical trials supports better health outcomes for the people of NSW and maintaining competitiveness through access to the latest treatments from clinical trials.

Selection Criteria Summary:

Scope	Human Research Ethics Applications
Frequency	Quarterly
Inclusions	<ul style="list-style-type: none"> Study Type = All Application Type = Greater than low risk Approval Type = Approved/ Approved with conditions within the reporting period
Exclusions	<ul style="list-style-type: none"> Application Type = Low and negligible risk Approval Type = Not within the reporting period Migrated studies

Total

Total time is defined as the measurement of the total, unadjusted time from the Submission Closing Date of the first meeting the application is assigned to, to when the final decision notification email is sent.

Summary for Metric 3

Ethics review performance of NSW HRECs according to the **<90-day benchmark** for studies approved during the reporting period (**Quarter 4 2022**) are shown in **Table 1**.

During the reporting period, 227 studies (greater than low risk pathway) were approved by a NSW Health HREC with an average review time (total time) of 56 days. Of these 227 studies, 66 (29%) were classified as clinical trials (**Table 2**).

Further breakdown of clinical trial approvals by sponsor type is provided in **Table 3** (by NSW PHOs) and **Table 4** (by quarter). Historical performance of NSW PHOs against the old and new benchmarks for the review and approval of human research ethics applications is presented in **Table 5**.

Table 1. The **90 calendar days benchmark** for approval of human research ethics applications (**greater than low risk**) during the reporting period.

Site-specific Assessment (SSA) Authorisation Timelines of Human Research Projects in NSW PHOs

KPI21-04: Research Governance Application Authorisations – SSA Authorisations within 60 calendar days

NSW State Benchmark: The benchmark for the 2021/22 financial year onwards for authorisation of SSA applications is 60 calendar days

Definition:

The proportion of site-specific assessment (SSA) applications (excluding lower to negligible risk) authorised by the Research Governance Office (RGO) within 60 calendar days, authorised within the reporting period.

Context:

The measure will no longer account for clock stops in accordance with the National Health and Medical Research Council Certification. Handbook. Instead, the end-to-end time will be measured. The SSA application received date is the date the RGO or designee receives an SSA application from a researcher regardless of whether it is complete and/or deemed valid. The clock is stopped when the final SSA decision letter is provided to the site principal investigator.

Desired Outcome:

Ensuring timely processing of site approvals for research and clinical trials supports better health outcomes for the people of NSW and maintaining competitiveness through access to the latest treatments from clinical trials.

Selection Criteria Summary:

Scope

Site-specific assessment (SSA) applications

Frequency

Quarterly

Inclusions

- Study Type = All
- Application Type = Greater than low risk
- Approval Type = “Authorised” or “authorised with conditions” within the reporting period

Exclusions

- Application Type = Low and negligible risk
- Migrated studies

Total Time:

Total time is the measurement of the total, unadjusted time from the Submission Date to when the final decision notification email is sent granting approval.

Summary:

SSA review performance of NSW PHOs according to the **<60-day benchmark** for studies authorised during the reporting period (**Quarter 4 2022**) are shown in **Table 6**. During the reporting period, **438** studies (greater than low risk pathway) were authorised in NSW PHOs with an average review time (total time) of **37** days. Of these **438** studies, **202** were classified as clinical trials (**Table 7**). Further breakdown of clinical trial SSA authorisations by sponsor type is provided in **Table 8** (by NSW PHOs) and **Table 9** (by quarter). Historical performance of NSW PHOs against the old and new benchmarks for the review and authorisation of governance applications is presented in **Table 10**.
